

## WIENXTRA-Medienzentrum

Now more than ever, media literacy is an extremely important educational goal. Today's world of media invites you to play an active role in shaping it – so what are you waiting for? If you're able to express yourself in the languages of the media, then you should have no problem in understanding and "getting" the media as well.

Do you work with children or young people and want to integrate media into your work? Then the media centre has plenty on offer for you: seminars, information evenings and the media education course provide inspiration for your daily work. The equipment rental service as well as our premises are available for media educational projects for youth work.

The media centre staff will be happy to advise and support you when it comes to your project plans.

The WIENXTRA-Medienzentrum cooperates closely with the City of Vienna and in particular, with its Municipal Department for Child and Youth Welfare.
