Key Action: Learning Mobility of Individuals
Action Type: Discover EU inclusion action

Project Title

Discover Europe, discover yourself

Project Coordinator

Organisation CUBIC - Cultur & Bildung im Context
Address Jahnstraße 6 , 6020 Innsbruck , Tirol , AT
Website www.cubic-online.eu

Project Information

Identifier 2023-1-AT01-KA155-YOU-000145312
Start Date Mar 30, 2024
End Date Sep 29, 2025
EC Contribution 40,824 EUR

Project Summary

Objectives

The overall aim is access to travel for all - and to support the process of inclusion, enabling new perspectives and make people aware of their opportunities and more confident to seize them and to take take part, regardless of their background.

Impact

In a long term expectation, with our project we aim at offering a lifechanging experience for young people with fewer opportunities, and making travel activities a more sustainable experience for the young people involved. Through follow up activities we might be reaching a even longer lasting impact.

Start Date Mar 1, 2024

End Date Feb 28, 2025

EC Contribution 22,312 EUR

Project Summary

Objectives

We want to support the establishment of a strong, peaceful, tolerant and open society in which everyone can find his place

so that everyone can participate, create and benefit from it.

Therefore we help young people with fewer opportunities to participate in social life, in a for them new way, to support their inclusion.

We also want to help young people to get a better understanding of democratic processes, the challenges, difficulties and

the need of an active citizenship which will strengthen our democracy and the responsibility in society for it.

Impact

This project will foster the inclusion of young people with fewer opportunities through the change of mindset away from

stereotypes. This change in mindset can happen through new learning experiences during an "expedition" to foreign

capitals, the interaction with youth organisations and young people on site and the comparative analysis of the differences

and similarities .

This experience will also offer the chance to become aware of the difficulties and challenges of a society and democracy

especially on European level. The exchange with other youngsters about the possibilities in a democratic process and the

view on best practice projects (which will be visited abroad) will empower the youngsters to become themselves aware as an

important, citizen that can create our society together with all the other citizens.

By that we try to create a chance for the participants to move from the edge of our society more to the middle and to work as

multiplicators among their peer groups by sharing their learning experiences and impressions they gained.

The participants will have a risen knowledge about other countries, nations and cultures. This journey will lead to a better

understanding from differences between the people among Europe depending to their environment, economic circumstance, history,.... etc.

Better understanding from democratic processes and the difficulties in this activities.

Increased curiosity within peers about travel in general and other countries from young people who recognised the travel

activities during this project.

Through the comparative analysis between train and plane, more knowledge and experiences in "green traveling" over big

distances and thereby risen responsibility for our environment.

All participants and observing peers will have a more open mindset, they will feel empowered and it will strengthen their

(European) citizenship and connection to society.

In our region more people will recognise the possibilities of the European youth programs what can help to run project in future with motivated young participants, bigger support through society, economy and politics and new cooperations.
